

City Administrator Monthly Update September 2012

By City Administrator Mike Story

Administration

Measure V on November 6, 2012 Ballot

As we enter into a second century of progress, the City of Rialto is committed to providing its residents with a safe, healthy and prosperous place to live, work, and play. The City has made every effort to provide the level of services you need and have come to expect in our community. These efforts have been affected greatly by the downturn in the economy which has reduced City revenues from property and sales taxes, and most recently, the legislature's decision to eliminate Redevelopment Agencies.

All of this has resulted in a reduction of more than \$8 million dollars in City revenues over the past six (6) years. We have responded by reducing the number of City employees, cutting salaries, using funds in our reserve and reducing City services. As we evaluate the projected 2013/2014 budget, we cannot continue to rely on funds in our reserve and will be forced to cut additional services.

So, what is the answer? On August 8, 2012, the City Council unanimously authorized placing a measure on the November 2012 ballot to replace lost tax revenues. Measure V, if approved by Rialto voters, would increase the business license tax for those specific few businesses that use Rialto as a base to produce and deliver petroleum products throughout California.

The business license tax will not be increased for any other businesses, including gasoline service stations. Because it represents a new source of revenue to replace those that have been lost, Measure V has been placed on the ballot for residents of Rialto to vote on.

Additional information will be available over the next few months. If there are questions that the community might have, please contact the City Administrator's office at (909) 820-2689, or by email at administration@rialtoca.gov.

City Offices Closed

In an effort to reduce costs, the City and Non-Safety Unions have agreed to close City offices during the Winter Holiday. City offices will be closed from Monday, December 24, 2012, thru Tuesday, January 1, 2013. City offices will resume normal business hours at 7:00 A.M. on Wednesday, January 2, 2013.

In addition to the above dates, City offices will be closed in observance of the following Holidays in 2012:

- Veteran's Day – Monday, November 12
- Thanksgiving Day – Thursday, November 22 – City offices have traditionally been closed on Monday following the Thanksgiving Holiday. However, this year, City offices will be open on Monday, November 26.

City Clerk

14th Annual Family Festival

The City of Rialto is hosting its 14th Annual Rialto Family Festival on Saturday, September 15, 2012 from 10:00 am to 3:00 pm, located at Rialto City Hall, 150 S. Palm Avenue. The 19th Annual Pollution Prevention Fair and 5th Annual Healthy Rialto Fitness Day will be held in conjunction with the Rialto Family Festival. The festival was developed by the Human Relations Commission of the City of Rialto to celebrate the diversity of the community. It's a fun day of free games and entertainment including: the Rialto High School Cheerleaders, Dance demonstrations, Fire Department vehicle displays, Farmers Market, Rialto Library book sale, rock wall climbing, Block Party Game Truck, music, food, entertainment, and much more. For more information, please contact the Rialto City Clerk's Office at (909) 820-2519.

Farmers Market

Every Wednesday from 10:00 am to 2:00 pm, the City of Rialto hosts its Certified Farmer's Market through the Healthy Rialto program which promotes healthy eating and healthy living with local businesses and growers. Located at City Hall, vendors sell a variety of fresh vegetables, fruits and nuts at a reasonable cost to consumers. Come out and see what our local growers have to offer! The Farmer's Market will run through September.

Administrative & Community Services

Recreation Division

The Recreation & Community Services Guide (Brochure) is delivered direct mail to 27,000 recipients throughout Rialto three times per year. The three seasons are January-April, May-August and September-December. If you don't receive a brochure by the middle of the first month in any given season, please contact the Recreation and Community Services office at 909-421-4949. You can always view the Recreation & Community Services Guide online at RialtoRec.com.

The fall season brochure is just coming out, and it is value packed with information on programs such as licensed child care, pre-school and of course tiny tots. Other youth activities include sports programs such as basketball, soccer and flag football. If you prefer martial arts or dance classes, we have that too!

Join in the fun at the Rialto Racquet & Fitness Center, Senior Center, and Community Center. There are programs and activities for the entire family, or if you are planning a special event, all three facilities are available on a rental basis.

Take a look at the Recreation & Community Services Guide. You'll be sure to find something you're interested in! Call or come in to the Recreation & Community Services office and register for a program today, or for more information call 909-421-4949.

Human Resources Division

City of Rialto Job and Resource Fair

The City of Rialto is hosting a Job and Resource Fair in partnership with the Cathedral of Praise.

Date: **Wednesday, September 19, 2012**

Time: **9:00 AM – 1:00 PM**

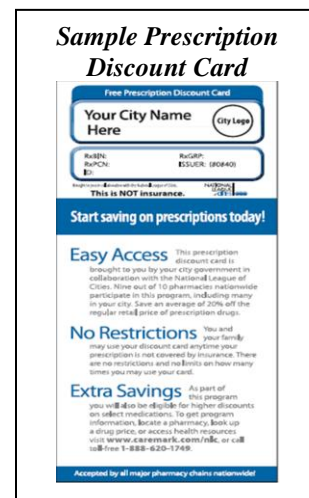

Location: **Cathedral of Praise - 1521 S. Riverside Ave., Rialto, CA 92376**

Employers will be recruiting for full-time, part-time, and seasonal employment. Come professionally dressed, bring copies of your resume and be prepared to speak to employers on site. **Please contact the City of Rialto Human Resources at (909) 820-2540 for more information.**

Free Prescription Discount Card

The **Prescription Discount Card** is made available to residents by the City of Rialto in collaboration with the **National League of Cities** (NLC) and is made possible through City of Rialto membership in NLC. The card is **FREE to all City of Rialto residents**, regardless of age, income or existing health insurance. By using this card you **may save an average of 20%** off the regular retail price of prescription drugs at participating pharmacies. *This program is NOT insurance. Discounts are only available at participating pharmacies.* Discount cards are available at:

- * City of Rialto website:
<http://www.rialtoca.gov>
- * Human Resources – 290 W. Rialto Ave
- * Utility Billing – 150 S. Palm Ave
- * Senior Center – 1411 S. Riverside Ave
- * Library – 251 W. First Street
- * Recreation – 214 N. Palm Ave., #204
- * Chamber of Commerce –
120 N. Riverside Ave.

**City of Rialto
Prescription Discount Program Report**

Month	Total Rx's	Price Savings	Avg. Price Savings	% Price Savings	Total Utilizers
Feb-12	162	\$ 1,268.43	\$ 7.83	19.5%	80
Mar-12	168	\$ 1,219.45	\$ 7.26	20.6%	82
Apr-12	167	\$ 1,628.38	\$ 9.75	22.8%	87
May-12	180	\$ 1,596.61	\$ 8.87	16.3%	85
Jun-12	154	\$ 1,201.22	\$ 7.80	19.4%	80
Jul-12	130	\$ 816.10	\$ 6.28	17.2%	60

Police Department

Police vs. Fire Chili Cook-Off

This year's National Night Out celebration was once again a great success. One of the highlights was the Police vs. Fire Chili Cook-Off. While it's no secret the Fire Department has won several of the past competitions, this year was different. The Police Department swept the competition by claiming the top three spots. 1st place went to Corporal Gary Cunningham, 2nd place to Lieutenant Andy Karol, and 3rd place to LET Noretta Barker. All of the proceeds went to "Relay for Life."

Sobriety Checkpoint Grant Program 2012

The Police Department has been awarded \$78,750.00 from the Office of Traffic Safety (OTS) to conduct ten DUI checkpoints from October 1, 2012 to September 30, 2013. The grant provides overtime for officers, support personnel and supplies.

Selective Traffic Enforcement Grant Program 2012

The Police Department has been awarded \$120,000.00 from the Office of Traffic Safety (OTS) to implement a selective traffic enforcement program to increase traffic safety with the City of Rialto. The grant will focus on traffic safety, community education, directed enforcement, along with distracted driving to include cell phone usage, texting, or emailing while driving.

6th Annual Latino/Native American Recognition Breakfast

On September 22, 2012, Officer Robert Morales will be honored at the 6th Annual Latino/Native American Breakfast held by Assembly Member Wilmer Amina Carter's office. The purpose of the event is to recognize those individuals who have made an extraordinary contribution to our community through their talent, skill, imagination and achievements. These individuals serve as examples and role models to other young people in our community, and demonstrate what is possible through their passion and dedication. Congratulations Officer Morales!

4th Annual Public Safety Volunteers Recognition Event

On October 19, 2012, RUSD Staff and Pride Platoon Boot Camp Volunteers Barbara Roadarmel and Lizette Escobedo will be honored at the 4th Annual Public Safety Volunteer Recognition Event held by Assembly Member Wilmer Amina Carter's Office. The purpose of this event is to recognize those dedicated individuals who assist public safety.

Police Department Citizen Academy

The Citizen's Academy is designed to present residents with an understanding of the Police Department's operations, which will provide a greater awareness and understanding of law enforcement's role in our community. Each week, an inside look at police functions will be taught by police executives and veteran officers.

The Citizen's Academy curriculum will include, among other things: criminal investigations, traffic laws, radio communications, drug and gang enforcement, police ethics, police K9s, SWAT, crisis negotiation, crime analysis, and patrol functions. The Academy meets each Monday evening from 6:00 pm to 9:00 pm at the Rialto Police Department Annex, located at 429 W. Rialto Avenue. The next class will begin September 24, 2012.

Anyone interested in attending the Citizen's Academy, can download an application and email it to Lieutenant Kathy Thompson at ktompson@rialtopd.com. Applications can also be picked up at the Rialto Police Department, 128 N Willow Avenue.

City-Sourced "App" – Now Online

City-Sourced delivers custom mobile reporting applications to our residents across all the major smart-phone platforms (iPhone, Android, Blackberry, & Windows Phone). City-Sourced provides a simple platform empowering residents to identify public safety issues (gang activity, narcotics activity, graffiti, abandoned vehicles etc.) and report them to the Police Department, Code Enforcement, or Public Works for resolution. This application is available now. For more visit our website at www.rialtopd.com.

On Saturday, September 29, 2012, the Drug Enforcement Administration (DEA) will coordinate a fifth nationwide one-day collaborative effort to remove potentially dangerous controlled substances from our nation's homes. The National Take-Back Initiative will provide those who have accumulated unwanted and unused prescription drugs a great opportunity to safely dispose of them and remove them from their homes.

Rialto citizens can bring their unwanted or unused prescription drugs to:

City of Rialto's Household Hazardous Waste Collection Center
246 S. Willow Avenue (south driveway)
Saturday, September 29, 2012
8:00 a.m. to 12:00 p.m.

Area Command Meetings – September and October 2012

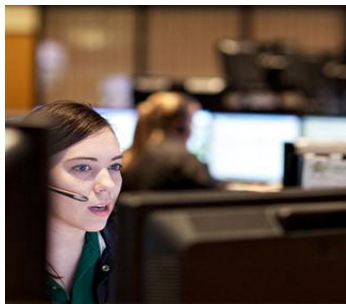

The Area Commander Program is responsible for those areas which directly influence the quality of life for the residents and businesses in Rialto. In addition to enforcing the laws of our society, the Police Department believes it is equally important to maintain and develop positive relationships with all members of the community. The Area Commander Program is one of many innovative examples of the Rialto Police Department's "Commitment to Community."

- Area #1 - Thursday September 6, 2012 at Sunrise Church - 2759 N. Ayala Avenue
- Area #2 - Wednesday September 12, 2012 at Trapp Elementary - 2750 N. Riverside Avenue
- Area #3 - Wednesday October 3, 2012, at Simpson Elementary - 1050 S. Lilac Avenue
- Area #4 - Thursday October 18, 2012, 7:00 at Boyd Elementary - 331 E. Merrill Avenue

Fire Department

Improving Efficiencies at the RFD: Smart Use of Resources

This September, the Rialto Fire Department will perform final testing of a new form of Emergency Medical Service (EMS) resource allocation known as Priority Dispatching. Experience has shown that although all calls to 9-1-1 are important, not all of them are true time sensitive medical emergencies. Typically, fire departments would send their maximum response to every medical call because the severity of the problem was not known until units arrived at the scene. For Rialto, this meant sending a minimum of two

units (Fire Engines and ambulances) to every medical call for service. Through the use of Priority Dispatching, however, dispatchers are able to determine the medical severity of the patient's complaint through a structured series of brief questions. Based on the information provided, the dispatcher can then send a standardized response that matches the needs of the patient. For Rialto, this will mean that less severe calls may get one unit responding instead of two, and more severe calls will get additional resources.

In every case, a Fire Department resource will respond quickly to each call for service. However, by matching the resources to the patient's needs, we ensure that we make the best use of the resources we have, and that the RFD is available to answer the needs of all the community in a timely fashion. After the testing is completed in September, the Fire Department plans to institute the program full-time beginning October 1, 2012.

Rialto Fire Receives Donation from Factory Mutual

On August 7, 2012, the Rialto Fire Department was awarded a fire prevention donation of \$1,321 from Factory Mutual (FM) Global, one of the world's largest commercial property insurers. The funding will be used to purchase digital cameras for the department's arson investigation unit. This additional funding will help to strengthen the department's efforts to efficiently investigate the cause and origin of fires in the City, and reduce the number of arson related fires.

During the past 35 years, FM Global has awarded millions of dollars in funding to fire departments and related agencies worldwide. Through its Fire Prevention Grant

Program, FM Global awards grants quarterly to fire departments, and other community organizations worldwide that best demonstrate a need for funding.

Notable Incidents

Industrial Fire

Rialto Fire Department responded to a silo fire at 503 E. Santa Ana / Enertech Facility. Residue from one of the silos at the plant caught fire and threatened multiple areas of the operation. However, the quick and efficient response from Rialto fire isolated the fire to the area of origin. This greater alarm fire required the assistance of Colton and San Bernardino County Fire Departments. The cause of the fire is under investigation by the Rialto Fire Department Investigation Unit.

Residential Structure Fire

On August 19th, at 9:34 am, Rialto Fire crews responded to a structure fire at 1510 W. Bonnie View. On arrival, firefighters found a two story apartment building with fire involving a ground level garage with extension to the apartment above. Fire personnel launched an aggressive attack which kept the fire from spreading to adjacent apartments. Rialto Fire investigation personnel are currently investigating the cause and origin of the fire. Residents were home at the time of the fire and escaped unharmed.

During the fire, the RFD used new video technology to capture firefighting operations through the eyes of the firefighter. The video has been edited and refined to be used as a training tool for the RFD and other fire departments around the country. You can view the video here: <http://www.youtube.com/watch?v=n4llqwTGilc&feature=plcp>

Rialto Fire Works to Keep Kids Safe

The Inland Empire Safe Kids coalition and the Rialto Fire and Police departments partnered to create a dramatic reenactment of a hurried mother who leaves a small child buckled into a car seat alone on a sweltering hot day. A few moments go by as others walk past the van holding various signs that read responses such as “Don’t want a confrontation” and “Not my business.” Finally, a concerned citizen, holding a sign reading “call 911,” walks past the van and calls authorities. A police car rushes into the parking lot, an ambulance close behind, and the child is rescued from the van, unconscious, and taken away on a stretcher.

The reenactment provided a simple yet palpable example of how more than 500 children have died since 1998 — 23 in 2012 alone — from heat stroke after being left unattended in warm vehicles. The reenactment was attended by several major media organizations that broadcasted the event throughout the southland.

The Rialto Fire Department wants to remind all adults that children should never be left alone in vehicles, especially on hot days where the interior temperatures can quickly exceed outdoor temperatures.

Rialto Fire Recognizes September as National Preparedness Month

National Preparedness Month (NPM) is an annual campaign to encourage Americans to take steps to prepare for emergencies in their homes, schools, organizations, businesses, and communities. NPM is led by the Federal Emergency Management Agency (FEMA) and is sponsored by the Ready Campaign in partnership with the Citizen Corps. While September is the month for recognizing national preparedness, the goal is to engage the public to make preparedness a part of their **daily** lives rather than one single month.

This September marks the ninth annual NPM. This year's theme is "[Pledge to Prepare - Awareness to Action](#)". Rialto Fire is asking the public -- individuals, business, and organizations -- to take specific action steps by doing at least one of the following:

1. Learn about emergency hazards - **including home fires** -and their appropriate responses
2. Make a communications plan
3. Build an emergency kit
4. Get involved in preparedness in their community.

Development Services Department

Target Distribution Center Takes Form

The 499,000 square foot regional distribution facility for Target Stores is going vertical at the southeast corner of Alder Avenue and Renaissance Parkway. The Project commenced construction in January, 2012 and is proceeding toward a June, 2013 completion date.

Perimeter Walls under construction on Alder Ave

Excavation and rough grading of the Site

Cory Briggs Won't Quit! Files Appeal to Appellate Court Ruling Allowing Wal-Mart to Proceed

On July 31, 2012 the Appellate Court published its ruling in favor of the City of Rialto allowing the Wal-Mart Supercenter Project to proceed at the southwest corner of Riverside Avenue and San Bernardino Avenue. Undaunted, on August 15, 2012 Cory

Briggs filed a 32 page request that the Appellate Court reconsider its decision in the matter. Cory Briggs has tied this project up in litigation since 2008 and has denied the residents of Rialto the benefits of new shopping opportunities and sales tax revenue.

Initially, the Appellate Court indicated that the decision would remain unpublished, meaning that it could not be used as precedent in other court proceedings. This prompted a series of requests from the League of California Cities and the Building Industry Association requesting that the decision be published due to the clarification of several controversial CEQA issues. These issues included cumulative traffic and air quality impacts, deferred mitigation, and rejection of reduced density alternatives. The court provided clear guidance on how to address these issues in future EIR's so that litigation is minimized.

Cory Briggs requested that the Appellate Court keep the opinion unpublished, even if it did not grant reconsideration for the case because of the precedential impact. According to legal counsel, it is very unlikely that the appeal of the appeal will be granted. If denied, the case could be appealed to the California Supreme Court.

Fontana Water Company Proposes Substantial Development Impact Fee Increase

The City recently became aware of a proposed increase in development impact fees for industrial uses that would make industrial development in north Rialto prohibitively expensive. Apparently, Fontana Water Company submitted the request to the Public Utilities Commission last year as part of a larger rate increase for its customers. Rialto only became aware of it after meeting with the Fontana Water Company to discuss service for a proposed industrial building on Baseline Road.

For a proposed 370,000 square foot building near the Airport, the total fees and improvements requested by Fontana Water Company were estimated at \$3.3 million, or approximately \$9 per square foot of building space. As comparison, distribution facilities in Rialto normally pay about \$2 per square foot for all development impact fees. This single expense would render this project economically infeasible if implemented, and would seriously threaten the redevelopment of the Rialto Airport which contemplates several million square feet of industrial uses.

The City, its development partners, the BIA and NAIOP have mobilized to protest the proposed rate increases before the Fontana Water Company and the Public Utilities Commission.

Oversight Board Approves Transfer of Airport Property to City

On August 23, 2012 the Oversight Board approved a Resolution which authorized the conveyance by quitclaim deed of the 436 acre Rialto Municipal Airport from the Successor Agency to the City of Rialto. In 2007, the City of Rialto conveyed the Airport Property to the Redevelopment Agency of the City of Rialto in exchange for a promissory note which obligated the Agency to pay somewhere between \$26-\$32 million for the property, with payments due upon the sale of parcels from the Agency to Lewis-Hillwood Rialto. Because of the dissolution of the Agency by state legislative decree, the Agency cannot fulfill its obligations to the City and consequently the City issued a Notice of Rescission to the Agency. While title legally passed back to the City on January 26, 2012, the action of the Oversight Board was deemed necessary to clarify title for potential third party purchasers and to resolve any dispute that may exist between the Successor Agency and the State of California. The Department of Finance has up to 60 days to request and conduct a review of the Oversight Board's action.

East Jackson Apartment Community Goes Through Major Renaissance

In 2006, the City and former Redevelopment Agency initiated a revitalization project for the 100 and 200 East Block of Jackson Street. The cul-de-sac consisting of 28 four-plex apartment buildings was a problem neighborhood for at least two decades. The neighborhood has been plagued with a history of crime and dilapidated living conditions.

With close working relationships established between the Housing Division, Code Enforcement Division, Building Division and Police Department, the City implemented code enforcement and property receivership improvement actions. At the City's request, the superior court appointed a receiver over 8 buildings. The receiver is granted broad powers by the court to secure funding and improve properties to meet City code requirements.

In August, major rehabilitation of the last building under receivership commenced. Due to the City's effort, the neighborhood has greatly improved physically and economically. One resident recently stated that East Jackson is 90% better compared to 10 years ago and that her children can now play outside and feel safe.

Several of the properties in the East Jackson community have been fully rehabilitated to include new landscaping, paint, roofing, and other structural repairs using a court ordered receivership initiated by the City of Rialto.

Public Works

Pepper Avenue Extension

Pepper Avenue Extension Project consists of extending Pepper Avenue 2,900 feet to its current terminus to the South of the 210 Freeway. The Project includes construction of box culverts, crib walls, sewer main, street lights, parkway landscaping, and new pavement. The project area sits within a drainage creek and is surrounded by sensitive protected habitat. Due to this protected habitat the City has worked with Federal and State agencies such as the United States Fish and Wildlife Service (USFWS), California Department of Fish and Game (CDFG), Caltrans and United States Army Corps of Engineers (ACOE) to ensure there is a minimum impact to this area. City went through a lengthy permitting process with these agencies and has obtained the necessary permits.

The protected habitats within the project location are the Santa Ana River Woolly Star (SARWS) flower, the San Bernardino Kangaroo Rats (SBKR) and a nest of Red Tail

Hawks with two (2) younglings. At this point in time, the design has been completed and a construction contract has been awarded to Griffith Company. In addition, Willdan Engineering has been engaged to provide inspection and project management services. Also, ECORP Environmental, Inc. has been acquired to provide biological and other environmental related services.

Permits from various environmental agencies have imposed stringent mitigation measures for the proposed project. Some of these mitigations include conducting bird surveys, ensuring that the nest is inactive, collecting seeds from the SARWS, and trapping the SBKR. The bird survey has been completed, SARWS seed collection and SBKR trapping is currently underway.

A contract was previously awarded by the City Council on (Date) to Griffith Company (Contractor), and a Notice to Proceed was issued on July 2, 2012. The Contractor has been stock piling fill dirt material at a temporary site near Ayala Drive and the SR-210 and is now stock piling fill dirt material at the project site.

The SARWS seed collection and SBKR trapping is anticipated to be completed by mid-September at which point all construction activities can proceed. A formal ground breaking ceremony is being planned for a date to be determined at the end of September or early October. Construction is anticipated to be completed by July 2013.

Riverside Avenue Easton Avenue Retail Site Development

On July 24, 2012, City Council approved the plans and specification for this project in addition to authorizing the City to put the project out to bid. The project was officially advertised and placed out to bid on August 6, 2012. The bid opening for this project will be conducted on September 6, 2011.

This project is Phase II of the In-N-Out Burger (INOB) restaurant that will be built at the north east corner of Riverside and Easton Avenues. This will be a 49,141 square foot parcel and the cost for the Phase II improvements is estimated at \$1,141,000. These improvements consist of final grading, dry utility undergrounding, parking lot paving, lighting, traffic signals, landscaping and other improvements necessary to deliver finished pads. The overall project budget is estimated at approximately \$1,971,000.

Demolition of Digester #1 Cover at the Wastewater Treatment Plant

The steel cover for Digester #1 at the Wastewater Treatment Plant has been removed. The demolition contractor is in the process of smoothing the top and interior wall surfaces of the digester in preparation for the installation of a second Dystor cover. Siemens technical staff is scheduled to be at the site on September 6, 2012 to inspect the digester in preparation of the second Dystor cover installation. The second Dystor cover will provide additional storage of digester gas to feed the fuel cells. The first digester cover (Digester #2) was removed and replaced with a Dystor cover in 2008. The replacement of the 2 digester covers is part of the Phase I Wastewater Treatment Plant Expansion and Upgrades Project. The Phase I project included the installation of a three fuel cells system, a gas treatment system, and other systems to convert the digester gas into electricity to run the City's wastewater treatment plant.

Cactus Avenue Widening Project

On July 24, 2012, the City Council awarded a construction contract to Lee & Stires Company to widen the west side of Cactus Avenue between Foothill Boulevard and Etiwanda Avenue. This will provide a total of 4 lanes of traffic (2 north bound and 2

south bound) in addition to the center lane . The widening project is part of the City's approved Capital Improvement Program (CIP), and will increase the capacity of this section of Cactus Avenue and be consistent with improvements to the north. The construction is expected to start within the next 15 days with the utility relocation already underway by Southern California Edison.

Citywide Speed Survey

The City is in a process of updating their Citywide Speed limits. Every 5 to 7 years, State law requires public agencies to review their speed limits and make updates as necessary based on land use and transportation related changes. The City last updated the speed limits in 2003. Given the time that has passed since the City's last speed limit update, and the changes in roadway improvements completed over the last 9 years, it is important for the City Council to consider revisions to the existing speed limits to ensure the Police Department's enforcement of the CVC is legally defensible. The new Engineering and Traffic Survey was conducted in 2011. Currently the study is under review by Staff for presentation to the Transportation Commission and eventually to the City Council for adoption.

Solid Waste Management News

City of Rialto Pollution Prevention Fair & Family Festival

The City of Rialto in conjunction with the Household Hazardous and Solid Waste Division will be conducting its 19th Annual Pollution Prevention Fair and Family Festival on Saturday, September 15, 2012 from 10:00 am to 3:00 pm at the Rialto City Hall located at 150 S. Palm Avenue. The following events will be held:

- Free entrainment and Crafts
- Environmental Information
- A Recycled Art Display (located in the Council Chambers)
- Orchid and Used Book Sales
- FREE Document Shredding (sponsored by Burrtec Waste) – Residents ONLY, 2 boxes per resident from 10:00 am to 2:00 pm in the Library Parking Lot
- Meet the Bug Man (sponsored by Burrtec Waste)
- Farmer Market
- Fire & Police Demonstrations

For more information, please call (909) 421-7221

Hazardous Household Waste Collection

During the month of August, Solid Waste held their Hazardous Household Waste Collection. The total stats for the event were as follows:

- **113 Resident** served
- **280 gallons** of used motor oil
- **3 pallet** of paint
- **4 drums** of miscellaneous poisons and other toxic liquids
- **5 barrels** of sharps
- **10 vehicle** batteries

During the month of September, the site will be open on Friday and Saturday the 14th and 15th and Friday and Saturday the 28th and 29th from 8:00 am until 12:00 noon.
